

Liberty County Board of County Commissioners

Request For Proposal (RFP) – Insurance Services

Addendum No. 1 – Dated 7/16/2024

Correct Email Address for Questions

On Page 4 of the RFP, the email address listed for submission of questions was incorrect. The correct email address for submitting questions is jpalm@mcgriff.com. Please resubmit any questions that may have been submitted to the incorrect email address.

Question Deadline Extended

The deadline for submitting questions has been extended to Monday, July 22, 2024, at 5:00 PM EST.

Addenda Posting Location Change

The website where addenda associated with this RFP will be posted has been updated to <https://libertycountyfl.org/bids-rfps/>

Updated Underwriting Information

- The Property Schedule has been updated. Please use the property schedule (Asset Survey Replacement Report) attached to this Addendum and disregard the Property Schedule and list of removed assets that were provided in Exhibit C of the RFP.
- The Miscellaneous Schedule of Inland Marine has been updated. Please use the Miscellaneous Schedule of Inland Marine attached to this Addendum and disregard the Miscellaneous Schedule of Inland Marine that was provided in Exhibit C of the RFP.
- The Automobile Schedule has been updated. Please use the Automobile Schedule attached to this Addendum and disregard the Automobile Schedule that was provided in Exhibit C of the RFP.

Responses to Questions Received to Date:

1. The county had an asset survey performed during this policy year, and they signed off on it. This created an updated property schedule, which includes both increased replacement cost values as well as newly added structures. The RFP does not include any of this, but rather includes the property schedule as it was at the start of the policy year. In the absence of the updated property schedule, any respondents would not be using updated values/newly added structures and, therefore, would not be providing an accurate premium for the County to budget for ahead

of the upcoming budget year. Please confirm that we are to use the updated property schedule and provide as such.

An updated property schedule (Asset Survey Replacement Report) has been provided in Addendum 1 and should be used for quoting purposes. Estimated New Total Insured Value (New TIV): \$33,573,144

2. The auto schedule had some changes made during the policy year. Again, the schedule provided does not reflect this, nor were any endorsements included. In the absence of the currently insured auto schedule, any respondents would not be using an updated list of vehicles that the County currently insures and, therefore, would not be providing accurate auto coverage or premiums for the County to budget for ahead of the upcoming budget year. Please confirm that we are to use the most current vehicle schedule and provide as such.

An updated auto schedule has been provided in Addendum 1 and should be used for quoting purposes.

3. Provide the most current Inland Marine schedule (including endorsements).

An updated Inland Marine schedule has been provided in Addendum 1 and should be used for quoting purposes.

4. Number of Full-Time Employees.

118

5. Number of Part-Time Employees.

24

6. Number of employees that handle money and securities.

Approximately 30

7. We would like to request the following additional information relevant to our pending response to RFP - Property, Casualty and Workers Compensation Insurance:

- Claim descriptions on WC losses

This information is currently not available at the time of the addendum issuance. We will provide if available and if possible.

- Property Schedule in Excel format with COPE information

Excel format is not available at the time of the addendum issuance. We will provide if available and if possible. The updated property schedule (Asset Survey Replacement Report) provided includes all available COPE information.

- Number of Employees handling cash

Approximately 30

- Completion of the attached Cyber application if possible

The County cannot complete individual applications for all respondents, therefore underwriting data has been provided in Exhibit C Underwriting Information. If there are any requests for specific information not provided within the underwriting data, please request prior to the deadline for Questions.

- Full RFP number if applicable

This RFP has no associated RFP number.

8. Can you provide a copy of the recent asset survey that was completed for the county? I've reviewed the property schedule, and the majority of the schedule has not been updated from last year. I see that the water system assets have been removed but the values were not adjusted for the remaining assets.

An updated property schedule (Asset Survey Replacement Report) has been provided in Addendum 1 and should be used for quoting purposes. Estimated New Total Insured Value (New TIV): \$33,573,144

9. There is no quarterly report for the work comp for the period of 1/31/24 – 4/30/24. Even if there are no losses, we will need the report for that period.

This information is not available at the time of the addendum issuance. We will provide if available and if possible.

10. I also want to get some clarification on the process from the RFP.

On page 9, It reads;

EVALUATION PROCESS AND CRITERIA

1. The Consultant will evaluate the RFP responses and provide recommendations to the Board of Proposers who present the most advantageous policy terms, premiums, and services to the County. After the bid opening, the Consultant is authorized to negotiate with Proposers to present the Board the Proposer's highest and best offer.

It is the final sentence in this statement that I would like to get clarification on. Does this mean you will share pricing and ask or allow respondents to make premium adjustments to their bids? Please clarify.

We plan on making a recommendation based on the proposals as submitted and not to share pricing and allow for respondents to make premium adjustments; however, if the

consultant has reason to negotiate or ask for additional information from proposers after the bid opening, they are authorized to do so.

Estimated New Total Insured Value (New TIV): \$33,573,144

Difference between Current TIV and New TIV: \$15,556,883

By entering my information below, including my full name, I understand and acknowledge that this report was provided to our municipality at no cost by Florida Municipal Insurance Trust ("FMIT") in order to help identify the real property assets either owned or under the responsibility of our municipality. I understand that the values offered for approval by our municipality in this report are to be used solely for the purpose of determining reasonable insurance placement values with the FMIT. I acknowledge that I have reviewed the report with an FMIT representative and that I am authorized to bind coverage for my municipality. I agree that I intend to place the assets listed in this report, for which I have selected "Schedule" in the Insurance Decision column on my FMIT property insurance policy in the amount listed in the Adjusted FMIT Value column. I agree that any assets listed as "Delete" will be removed from my FMIT property schedule, which may or may not remove them from coverage under applicable policy provisions.
